

TWERPS

The West End Rambling for Pleasure Society

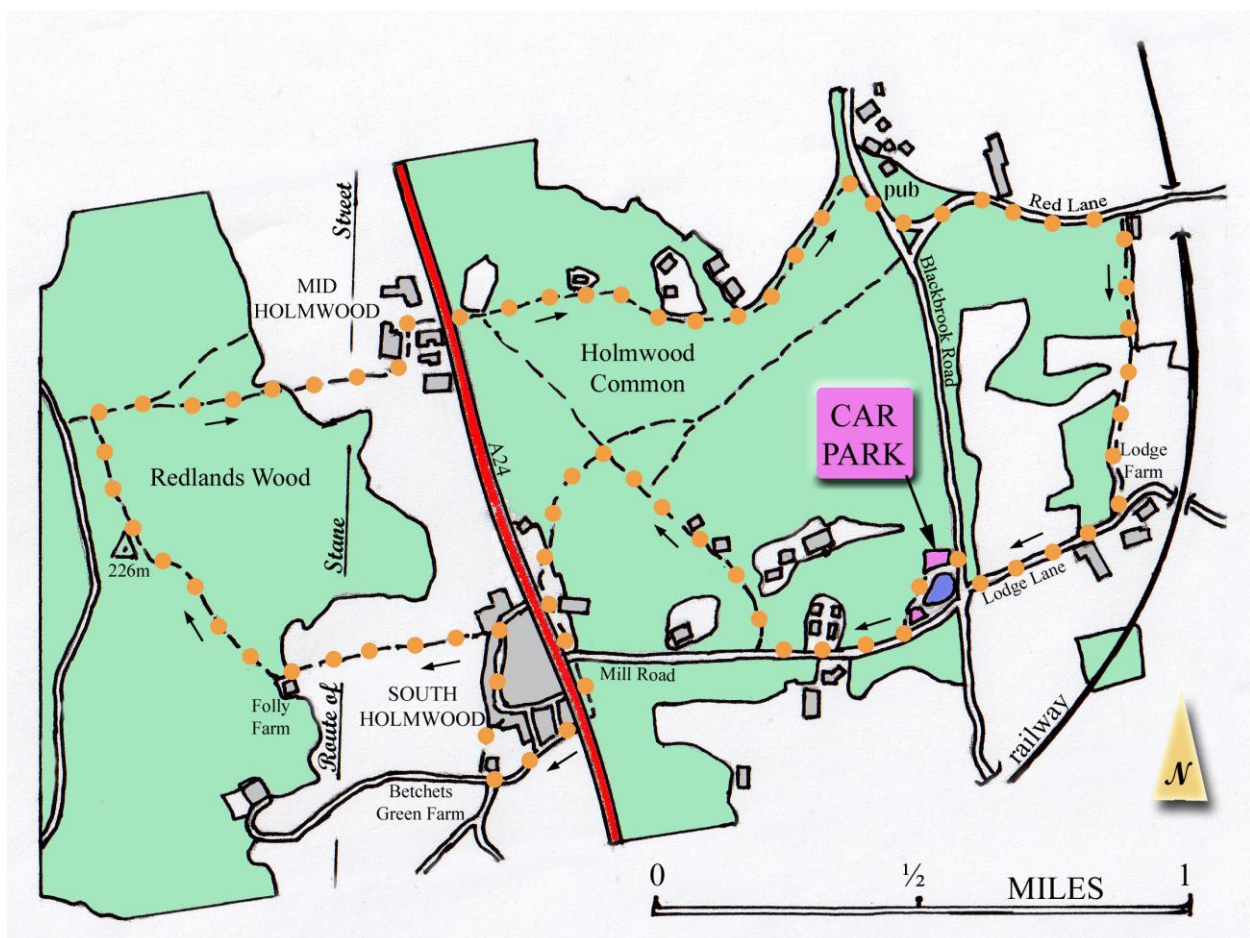

Sunday 12th September 2010

This is a shorter walk than last month so you should be able to cope with the long climb through Redlands Wood and be able to congratulate yourself that you have achieved a total climb of 140 metres (460 feet) over the walk. There is a lot of history available for this area which we can relay to you on the day.

We meet at the larger of the 2 car parks at 10 a.m. (OS Explorer map 146 - grid ref. TQ 183 454) and should return to the car park within 3 hours including the usual stop for refreshments.

Drive south on the A24 from Dorking to pass through Mid Holmwood then, after $\frac{3}{4}$ of a mile, turn left into Mill Road at South Holmwood. After a further $\frac{3}{4}$ of a mile at the first road junction turn left for 100 yards (90m) to the car park on the left.

Various parts of the walk could be a little muddy so please be prepared, especially if we have had more than a spot of rain in the preceding days.

West End to Holmwood Common car park - about 60 minutes. **Walk No.291**
