

TWERPS

The West End Rambling for Pleasure Society

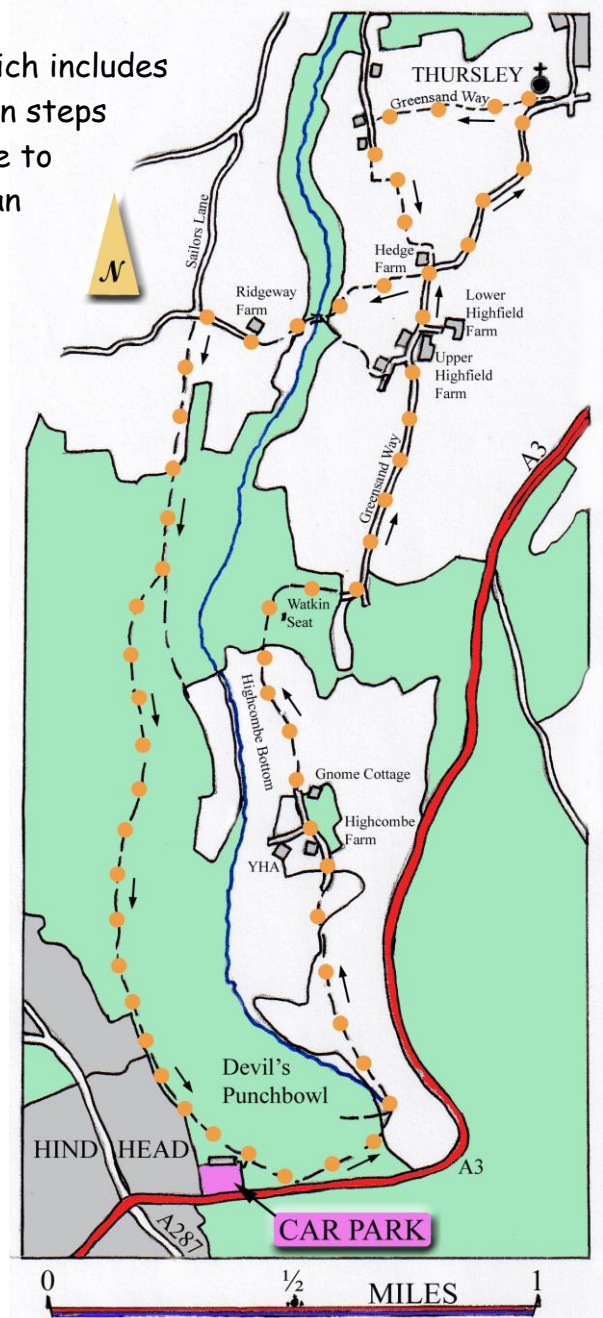

Sunday 15th November 2009

This newsletter has reached you a little earlier than usual as Nicholas will be away at the normal 'posting' time. If you have any queries contact us by Email or mobile phone (see below).

Meet at 10:00 a.m. for this walk of 6½ miles which includes a few stiles and does involve a steep descent down steps at the beginning, tailing out to a fairly steep slope to the valley bottom. The return to the car park is an easy climb but sticks would be useful for the descent. There will be a stop for refreshments around the half-way point and we expect to be back at the car park at about 1:30 p.m.

The walk is recommended for the great views and lovely countryside and the route takes us down into the bottom of the Devil's Punchbowl past the youth hostel and a farm.

To reach the starting point approach Hindhead from Guildford on the A3 and, just before the 40 mph speed restriction signs into Hindhead, turn right into the National Trust Hillcrest Devil's Punchbowl car park (Explorer map 133 - SU 891 357). The car park is free for National Trust members, who must display their membership card in their car, but there is a charge of £2 for the day for non-members. Work on re-routing the A3 through a tunnel at Hindhead continues but we understand that the road to Hindhead will not be affected and the traffic does not seem to be too slow through the roadworks.

West End to Hindhead - about 45 mins. **Walk No. 280**
